SKILLS

- **Languages:** JavaScript, C++, Java, PHP
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, JavaScript
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Tools/Platforms:** Git, GitHub, VS Code, Postman, Render, Vercel, MongoDB Atlas
- **Core:** Data Structures & Algorithms, OOPs, Operating System, Computer Networks

EXPERIENCE

Operations & Sponsorship Coordinator | VRC Grands Pvt. Ltd.

June 2024 - Feb 2026

- Managed multiple teams to ensure the timely completion of operational tasks under defined event requirements and deadlines.
- Assisted in proposal coordination, workflow planning, and execution processes for large-scale student and entertainment events.
- Coordinated with sponsors and external partners for collaboration, communication, and event execution activities.

Technical Community Lead | CodingBlocks LPU

Sept 2023 - Feb 2026

- Led a university coding community focused on technical learning, peer collaboration, and student engagement.
- Organized coding events, workshops, and competitions to promote technical learning.
- Managed registrations, communication workflows, and operational coordination for campus-level coding events.

PROJECTS

Online Polling System | Full-Stack Web Application

Jan 2026 - Mar 2026

- Developed and deployed a real-time polling platform enabling poll creation, live voting, and instant result synchronization.
- Built responsive frontend interfaces using React.js and Tailwind CSS with dynamic state management and component-based architecture.
- Implemented RESTful APIs and backend services using Node.js and Express.js for poll management and user interactions.
- Integrated MongoDB Atlas for cloud database management and deployed the full application live using Render.
- Utilized Socket.IO for real-time vote synchronization and live updates across connected users.
- Structured scalable backend architecture using middleware, routing modules, and event-driven communication patterns.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.IO, JavaScript

GitHub: <https://github.com/aryanchaudhary22/Online-Polling-System.git>

Modern E-Commerce Platform | Full-Stack Web Application

Apr 2026 - Present

- Developed and deployed a modern responsive e-commerce frontend with scalable UI architecture and dynamic product interfaces.
- Built reusable frontend components using React.js and Tailwind CSS for optimized user experience and responsive layouts.
- Integrated Node.js backend services and REST APIs for handling product data and application workflows.
- Currently integrating Laravel APIs and authentication systems to support secure real-world application functionality.
- Implemented deployment workflows and cloud hosting for live project accessibility and testing.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Laravel, REST APIs, JavaScript

CERTIFICATIONS

- Foundations of Cybersecurity – Google Career Certificates (Coursera)
- Java with OOPs – CipherSchools
- Computational Theory: Language Principle & Finite Automata Theory – Infosys Springboard

EDUCATION

- **Lovely Professional University** 2023 – 2027
Bachelor of Technology (B.Tech) - Computer Science Engineering
- **Senior Secondary (Class XII)** 2022 – 2023
St. Mary's School, Kashipur, Uttarakhand
